

TITUS MAINA KAMAU

Digital Banking & Software Solutions Professional

+254 748499289 | titusmainakamau053@gmail.com | tituskamau.website

PROFILE

Results-driven professional with a hybrid background in software engineering and digital financial services. Experienced in building scalable software solutions, integrating payment systems, and driving digital adoption in banking. Skilled in both technical development (React, Django, PostgreSQL, Docker) and customer engagement, ensuring seamless digital transformation. Passionate about leveraging technology to enhance user experience and deliver secure, efficient financial solutions.

CORE SKILLS

- Frontend & Mobile: React, React Native, Next.js, Flutter, TypeScript, JavaScript
 - Backend & APIs: Django, Node.js (Express), Laravel, Python, C#, Java
 - Databases: PostgreSQL, MySQL, MS SQL (Stored Procedures, Optimization), NoSQL
 - Reporting Tools: SAP Crystal Reports
 - DevOps & Infra: Docker, CI/CD, Cloudflare DNS/DDoS management
 - Integrations: M-Pesa Daraja, Equity Pay, Afrika's Talking SMS API, JWT Auth
 - Digital Banking: Mobile & Internet Banking promotion, AML/Fraud monitoring, Customer onboarding
 - Other Competencies: UI/UX Design, API Integration, ERP Systems, Research, Team Collaboration
-

PROFESSIONAL EXPERIENCE

DIRECT SALES REPRESENTATIVE

KCB Bank Kenya

March 2026 - Present

- Promoted mobile and internet banking services, increasing customer migration from branch to digital channels.
- Acted as first-line support for customer queries on digital transactions, ensuring timely resolution.
- Educated customers on new digital features and trained staff to support adoption.
- Ensured compliance with KCB's digital banking policies, monitoring for fraud and AML risks.
- Collected customer feedback on mobile app and USSD functionality, relaying insights to product teams.

SOFTWARE ENGINEER INTERN

Neuron Softwares Solutions

January 2026 - March 2026

- Developed forms and web APIs using Blazor, VB.Net, and ASP.Net C#.
- Handled backend development tasks to support ERP and digital platforms.
- Created reports with SAP Crystal Reports, improving data visibility and decision-making.
- Integrated M-Pesa Daraja API for secure payment processing within applications.

SOFTWARE ENGINEER INTERN

Unistrat Corporation, Thika

May 2025 - October 2025

- Assisted in developing new product features and automated testing scripts to improve reliability.
- Supported ERP system integration with mobile platforms, enhancing user experience.
- Conducted research and implemented solutions to streamline digital processes.

OTHER ROLES (LEADERSHIP & SERVICE)
